Non-Flammable - Non-Combustible. Product does not ignite. Use fire extinguishing media appropriate for surrounding materials.

Special Fire Fighting Procedures:

Local surfaces may be cooled with water, but product will not be hot to the touch even after intense heat exposure.

Unusual Fire and Explosion Hazards:

None.

Section 6.0 - Accidental Release Measures

Steps to be Taken in Case Material is Released or Spilled:

Dust and chips shall be swept, scooped or vacuumed and removed.

Personal Precautions, Protective Equipment and Emergency Procedures:

See Section 8 of the SDS for Personal Protective Equipment.

Methods and Materials for Containment and Cleaning Up:

No specific clean-up procedure noted. For waste disposal, see Section 13.0 of the SDS.

Section 7.0 - Handling and Storage

Precautions and Safe Handling:

Use work methods that minimize the creation of dust. Try to avoid the inhalation of dust wherever possible. Wear appropriate personal protective equipment. Wash hands after use. Observe good industrial hygiene practices. Ensure that forklift or similar equipment is rated as capable of lifting and moving loads. Forks should extend completely under the entire load. Forks should be extended as wide as practical.

Extremegreen boards are heavy, awkward loads and pose the risk of severe back injury. Always use proper lifting techniques.

Storage:

Extremegreen board should be stored in a cool dry environment and should remain in the manufacturer's packaging bearing the brand name and manufacturer's logo and Listing Number until ready for use. Extremegreen board should be stored on the manufacturer's pallets off the ground and away from standing water. Cover with a waterproof material when stored outdoors or on site to protect against weather, direct sunlight, surface contamination and construction traffic.

Waste Disposal Method:

Follow local laws and regulations.

Precautions to be Taken in Handling and Storing:

Protective gloves to be worn to prevent skin irritation. Take care not to touch eyes during handling of material.

The Protective Measures:

None.

Section 8.0 - Exposure Controls/Personal Protection

Skin Protection:	Protective gloves and/or clothing.
Industrial Hygiene Practices:	It is a good industrial hygiene practice to minimize direct skin contact for extended periods of time wherever possible.
Eye Protection:	Safety glasses or goggles.
Respiratory Protection:	Approved dust mask or respirator.
Ventilation:	General under standard conditions. Local exhaust/extraction is recommended in high dust environments.
Other Protective Clothing or Equipment:	None.
Work/Hygenic Practices:	General clean-up after exposure. Score and snap generates less dust than sawing, thus minimizing nuisance dust.
